

# You spoke. **We listened.**

For over 50 years **Sanako** has worked closely with educators to perfect and enable better speaking, comprehension and communication skills for language learners.

- **Sanako** has teacher-led language learning solutions for all situations - both inside and outside the classroom. Teachers have the flexibility to use any content from any provider they wish - from audio CDs and Internet- to teacher-created content.
- **Sanako** products are not limited to certain languages; they can be used to teach and learn virtually any language - anywhere.

*"No other digital environment provides students with the just-in-time learning opportunities afforded by a language lab in which they may perform both formative and summative assessment measures. It is the interactive nature of the lab, the real-time measure of correction during performance that makes the language lab stand above all other digital environments in scaffolding student learning... The simplicity of operation and the functionality of design of the **Sanako** system have made it our first choice for foreign language instruction in the 21st Century."*

-Terry Caccavale,  
Holliston Public School District, MA
